## PRESENTATION BY JO WILKES COUNTRYSIDE AGENCY OFFICER

Jo gave an overview – Potential Joint Parish Plan (Newbrough and Warden PCs)

## WHAT IS A PARISH PLAN?

A document that sets out the vision of a parish (or group of parishes) where they perhaps see themselves in 3 to 5 years time. A community consultation led by the parish council and should involve the whole community. Very important to develop an action plan that would prioritise community projects. Should be holistic may include issues of housing, child care, education, health matters, shops, lost services or services under threat.

## WHY DO A PLAN?

Help identify small local projects that can be easily accomplished with community groups – thus increasing community spirit and an awareness of functions of parish councils. (Activities done quickly with immediate obvious benefits.)

Producing a document to be taken to other organisations to show that there is a need.

A document that will influence other organisations, strategies and policies.

A grant of up to £5 000 per parish could be available. The parish would have to contribute 25%, of which could be 20% in kind and 5% in cash. Half of the funding would be “up front” with 10% retention. We can compare and build on the Village Appraisal”. The Parish Plan gives the opportunity to be pro-active.

**Minutes of Last Meeting:** The Minutes of the Meeting held on 5<sup>th</sup> November 2003 were agreed and signed by the Chairman.

**Matters Arising:** Clerk has consulted with Mr A Bawn Safety Officer for NCC

### **Letter from County Councillor**

Dear All,

As we enter the New Year, there is speculation surrounding the County Council's "Building Schools for the Future" bid for Government Capital Funding, its Ofsted Report and the need to address the "surplus places" issue. These have been talked about with Head Teachers and the Chairmen of School Governing bodies — the bid for capital funding for secondary schools had to be with the DfeS by December 19<sup>th</sup>.

By the nature of the bidding process it is an outline – no detail – of how the County would like to move forward to explore various ways in which best use of present and future buildings/resources can be achieved.

Inevitably, these raise (a) the hopes of many regarding new facilities; (b) concern about "local" schools; (c) the debate about 2/3 tier education.

The talks include discussion of various ways of addressing all these issues – "the whole school" — where all schools within a partnership (based at present upon high schools) are managed as one school through all tiers – learning villages – where schools, village halls, local sports clubs are utilised as learning facilities, they could include caring and community safety.

Transport and associated road safety will have to be planned into any new facilities – merges/ change of use of present facilities will need to be planned.

You as individuals, organisations, elected Councillors – Parish and District – should now start to explore and design the facilities that your community will require from 2004 onwards. The Mid-Tyne Trust recently hosted an evening at which the Countryside Agency and Tynedale Council planners outlined the value of "communities being involved in village/parish designing. They also indicated that professional and financial aid is available. I or Colin Earnshaw, Mid-Tyne Development Officer, will be pleased to talk to any individual or group about the Vital Villages projects. Colin is based in Newbrough and can be contacted on 01434 674904.

These planning programmes should be used to influence Tynedale and County Councils in their planning for the future of your community and its services and surroundings.

You need to start now – mid 2004 could be too late! Challenge your neighbours—your club management – your village society—your village hall committee—your school governors – your Parish, District and County Councillors – to assist/lead the discussions that will be needed— create some joined up thinking.
